ZenTec Learning offers intensive Summer and Winter Education and Training including English As a Second Language [ESL] Programs that are designed to meet the needs of all students and adults. Emphasis in ESL Programs is placed on development of age appropriate reading, writing, listening and speaking skills while enhancing related grammar and literature knowledge.

The focus of the programs is to increase rates of English language acquisition with a particular emphasis on academic English skills. We believe that the curriculum and activities that are offered will increase the ability for ESL students to advance their understanding of English and be more successful at school, business and in their personal lives.

Each program will conclude with an ESL assessment designed to determine levels of competency in English. Certificates of completion will be given to each program participant.
